

ScumbackTM XH75-LHDC

The classic British guitar tone from the 60's through the 70's.

The biggest ceramic magnet combination in the line. Amazingly high output over 101 db.

Big tight low end, with a balanced midrange and clear treble response that's silky smooth, not harsh.

Takes your amp tone to 11 when you're only on 8 on the volume knob, giving you the headroom you need to play the biggest stages with world class tone. Not for the faint of heart, this speaker kicks serious booty.

Specially treated 75hz cone sounds 20 years old.

80 oz. magnet, 1.75" voice coil, 12" wide.

Available in 30, 65 & 100 watt HP power handling.

Pre Rola style doping just like the originals.

8 bolt pattern allows mounting to most amps.

This speaker is like a really strong G12-65 model.

12-1/8" (30.79cm) diameter, 5-7/8" (14.90cm) deep, 11.5 lb (5.21Kg) .
